Tools required

- 1/2" socket and a ratchet
- 1/2" Wrench
- Philips or Flat screwdriver
- T-15 Torx bit or screwdriver

Installation Directions

REMOVAL OF THE DRAWER FROM THE ENCLOSURE WILL FACILITATE ACCESS TO THE BOTTOM OF THE DRAWER FOR INSTALLATION OF THIS COMBO LOCK KIT. FOR SAFETY THE DRAWER REMOVAL REQUIRES AT LEAST (2) PEOPLE. THE DRAWER SHOULD ALWAYS BE EMPTY BEFORE REMOVING IT. CONSTANT SUPPORT MUST BE APPLIED TO HOLD UP THE FRONT OF THE DRAWER THROUGHOUT THE ENTIRE REMOVAL PROCESS SO IT DOES NOT CAUSE INJURY AND/OR DAMAGE.

****NOTE: THESE INSTRUCTIONS ASSUME THE DRAWER HAS BEEN REMOVED FROM THE ENCLOSURE TO FACILITATE INSTALLATION OF THIS COMBO LOCK KIT WHICH IS INSTALLED TO THE UNDERSIDE OF THE DRAWER.**

****NOTE: ALL FIGURES INCLUDED IN THESE INSTRUCTIONS SHOW THE DRAWER UPSIDE DOWN FOR GRAPHICAL CLARITY.**

BEFORE BEGINNING THIS INSTALLATION, VERIFY THAT YOUR REAR CARGO OR TACTICAL GEAR DRAWER HAS BEEN PRE-MANUFACTURED TO ACCEPT THIS COMBO LOCK KIT. THE DRAWER FRONT MUST FEATURE HOLES FOR THE COMBO LOCK. A COMBO HOLE COVER PLATE MAY BE COVERING THE COMBO LOCK HOLES. REFER TO FIGURE 1 AND FIGURE 4.

1. Remove the #20.3.1 Standard Drawer handle and #20.3.5 Combo Hole Cover Plate by removing the (4) #20.3.2 carriage bolts, (4) #20.3.3 washers, and (4) #20.3.4 nuts. Save all hardware for reuse. (Figure 1)

2. Remove the #20.2.3 Standard Latch assembly by removing the (2) 20.3.2 carriage bolts, (2) 20.3.6 rubber washers, (2) #20.3.3 washers, and (2) #20.3.4 nuts. Save all hardware for reuse. (Figure 2)

3. Install the #20.4.6 Combination Lock Assembly through the pre-manufactured holes in the #9 Drawer Front. Fasten the combo lock to the drawer front with the (4) #20.4.14 screws. Install the #20.4.9 Stop Washer and the #20.4.10 Combo Cam onto the combination lock assembly shaft. Fasten with the (1) #20.4.16 washer and (1) #20.4.15 screw. (Figure 3)

****NOTE THE POSITION AND ORIENTATION OF THE STOP WASHER AND COMBO CAM IN FIGURE 3. BOTH MUST BE INSTALLED CORRECTLY ONTO THE SHAFT IN ORDER FOR THE COMBINATION TO FUNCTION PROPERLY.**

FIGURE 3

4. Install the #20.4.5 Combo Latch Assembly onto the drawer front panel by fitting it over the pushbutton and combo locks. **This is performed on the inside face of the drawer. Fasten the assembly to the drawer front with the (2) #20.3.2 carriage bolts, (2) #20.3.6 rubber washer, (2) #20.3.3 washers, and (2) #20.3.4 nuts (removed in Step 2). (Figure 4)

FIGURE 4

5. Install the #20.4.7 Combo Lock Drawer Handle to the front of the drawer and install with the (4) #20.3.2 carriage bolts, (4) #20.3.3 washers, and (4) #20.3.4 nuts (removed in Step 1). (Figure 5) ****NOTE THE ORIENTATION OF THE HANDLE FITS OVER THE COMBO LOCK AND ORIGINAL PUSHBUTTON LOCK IN ONLY ONE WAY.**

FIGURE 5

6. It is most convenient to set the combination lock code at this time. Refer to the document titled “**089 Operating instructions**” for instructions on setting combination code. **The combination pushbutton lock is typically shipped from the factory with either no code entered yet or “12345” and will need to be reset by the customer.**

****DO NOT CLOSE THE DRAWER AT THIS TIME.** Test the operation and function of the combination lock and the original pushbutton lock before closing the drawer.

7. Re-install the drawer into the enclosure at this time, if removed.
8. Test the combination lock and the original pushbutton lock by closing, unlocking and reopening the drawer. Refer to the document titled “**089 Operating instructions**” for instructions on operating the combination lock.

ATTENTION:

FREQUENT LUBRICATION IS NECESSARY ON THE LOCKING SYSTEM

The pushbutton lock contains an “O” ring seal to protect the interior from dust and water. If this mechanism is not lubricated regularly it will become difficult to operate and it may not return to its home position preventing the key from operating the lock. If this happens simply pull up on the pushbutton to manually bring it back to its home position. Lubricate the pushbutton with a light lubricant such as silicone spray. The pushbutton may have to be periodically disassembled and cleaned.
