

Description: Tail light
Part Number: 311146 - 311144
Application: 2009-2010 Dodge Ram

Tools needed:
Phillips screwdriver

Locate the two phillips screw
and remove them

Remove the tail light from the
vehicle.

Twist off the tail light socket and
remove the stop light bulb.

Take out the new led tail light
from the box.

Place the resistor into the hole of
the tail light housing.

Connect the socket from the
new led tail light in place of the
bulb. Make sure that the black
wire on the new led tail light
matches up with the black wire
on the stock wire harness.

Twist in the reverse light at the
bottom.

Test all functions for proper
installation before driving.

AnzoUSA™ products are covered, by a limited one (1) year warranty, to be free of manufacturer's defects. However, certain AnzoUSA™ product categories have warranty policies which differ from this standard, please contact your representative for detailed category information. Damage due to improper installation or road hazards is not covered. Seller and manufacturers' only obligations shall be to replace the product proven to be defective. Neither seller nor manufacturer shall be liable for any injury, loss or damage, direct or consequential, arising out of the use of or the inability to use the product. Before using, user shall determine the suitability of the product for its intended use, and user assumes all risk and liability whatsoever in connection therewith.
